AT&S guidance for 2007/08

AT&S AG, Vienna, Austria, March 15th, 2007

For the fiscal year 2007/08, starting in April 2007, the Management of AT&S Austria Technologie und Systemtechnik AG expects revenues between EUR 540m and EUR 550m and Earnings per Share between EUR 1.60 and EUR 1.70. This growth (revenue increase above 15% and EPS increase of roughly 30%) is solely based on organic growth, mainly out of the Asian plants of AT&S.

From today's point of view, this confirms that the loading softness in December and January as well as the bad product mix in the running fourth quarter are due to short term developments in the market. As a result of the trend towards slim mobile phones and a rising share of 3G phones, the demand for complex printed circuit boards will further increase.

AT&S will present its full year figures for 2006/07 on Mai 10th.
