REACH Information Letter

Dear valued Customers,

in accordance with Regulation (EC) No 1907/2006 (REACH) Article 33¹ we would like to inform you about our investigation result regarding the latest Candidate List of Substances of Very High Concern (233 SVHC substances published by the European Chemicals Agency ECHA on January, 17th 2023) as well as substances listed in Annex XIV and Annex XVII.

Certain Printed Circuit Boards, produced by AT&S listed in Annex 1 of this letter, contain Substance(s) > 0,1% weight by weight (w/w).

We would like to point out that this has no influence on the ongoing business. These products will be used without restriction until further notice. In parallel, we are working closely with our suppliers on replacement substances. We keep you informed about the progress.

Information on SCIP:

As of 5 January 2021, all our affected product families are registered in the SCIP database. We will be happy to provide you with the corresponding SCIP IDs and product family names on request. You will find further information on AT&S SCIP notifications on our homepage <https://ats.net/en/sustainability/>
