

Press Release

27/07/2009

AT&S is awarded „Achiever of the Year“ within supplier ranking 2009 of German TQ-Group

AT&S, European market leader and one of the world's strongest-performing printed circuit board manufacturers, received the award "Achiever of the Year 2009" during the first supplier day of TQ-Group held in Seefeld near Munich on 30 June 2009 and is, consequently, one of the "Suppliers of the Year 2009".

"Uncompromising customer orientation, flexibility, and reliability are the key to long-lasting, durable business relationships. Therefore, it is an honour for AT&S to be awarded achiever of the year and, hence, one of the top suppliers. It further evidences that AT&S is well-positioned with its Austrian plants focussing on the European market and its requirements", highlights Ernst Strasser, Director Sales & Marketing at AT&S.

The TQ-Group with its subsidiary TQ-Systems focuses, within the area of System Services and EEMS (Electronic Engineering & Manufacturing Services), primarily on the European market. The range of competence covers services for industrial electronics, medical, automation and measurement engineering as well as traffic and transportation engineering. AT&S is one of the leading suppliers of printed circuit boards for this market segment of the TQ-Group.

About AT&S

AT&S Austria Technologie & Systemtechnik Aktiengesellschaft is European market leader and one of the world's strongest-performing printed circuit board manufacturers. AT&S is extremely well positioned in the market for high-tech HDI Microvia printed circuit boards, which are chiefly used in mobile devices. The company is also highly successful in the automotive, industrial, and medical sectors. As a high-growth international enterprise, AT&S has a global presence with six production facilities – three in Austria (Leoben, Fehring, Klagenfurt) and one each in India (Nanjangud), China (Shanghai), and Korea (Ansan, near Seoul) and a sales network that spans four continents. Also see www.ats.net.

About TQ-Group

As an electronics service provider (E²MS supplier and CEM) TQ offers the complete range of services from the development and production of electronic assemblies and systems right up to service and product life cycle management. Standard products such as finished microcontroller modules (TQ minimodules) and industrial terminals complete the range of services. In addition, TQ offers customer-specific products as ODM products which are provided on time and economically using a comprehensive solution kit. The kit includes finished electronic, mechanical and software components including certification and licenses. The TQ-Group employs around 700 colleagues worldwide at four sites in Germany (Seefeld, Murnau, Peißenberg, Wetter/Ruhr) and at the works in Fontaines (Switzerland) and Shanghai (China).
